About

Consumer marketing generalist with nearly a decade of experience building programs from scratch across lifecycle, paid, content, and analytics at high-growth startups, with a genuine AI-native operating style. I don't use AI as a utility. I design workflows around it: programmatic messaging systems, automated content pipelines, AI-powered segmentation, and internal tooling built with Claude Code and Cursor that extend what a single operator can own. High agency by default: I identify what needs to exist, build it, and run it without a team underneath me. Track record of 0-to-1 system building at companies where the marketing function didn't exist before I joined.

Skills

Lifecycle & Email: Braze, HubSpot, Intercom, Onboarding, Activation, Retention, Re-engagement, Segmentation, Behavioral Triggers, Sequencing, QA, Performance Optimization

AI Workflows & Automation: Claude Code, Cursor, Programmatic Messaging Systems, AI-Powered Segmentation, Automated Content Pipelines, Internal Tooling, Workflow Design

Content & Creative: Email Copy, Landing Pages, Blog, Social, Newsletters, Briefing Workflows, Repeatable Content Systems, Brand Voice

Paid Media: Paid Social, Paid Search, Campaign Infrastructure, Testing Frameworks, Attribution, Budget Management, ROI Reporting

Analytics & Reporting: SQL, Amplitude, Mixpanel, GA4, Funnel Analysis, Cohort Analysis, Performance Dashboards, D2C Channel Reporting

Technical: HTML/CSS, Liquid, JSON, Python, JavaScript, WordPress, Webflow

Experience

Senior Lifecycle & Retention Lead · **Brilliant.org** · Remote

Aug 2024 – Jul 2026

- Built consumer marketing systems from scratch as the sole operator: lifecycle infrastructure in Braze, AI-powered content pipelines using Claude Code and Cursor, automated segmentation workflows, and programmatic messaging systems that ran 30M+ monthly touchpoints without additional headcount.
- Owned lifecycle, paid acquisition support, content, and analytics simultaneously as a generalist, spanning the full consumer marketing stack and driving a 5x DAU increase (20K to 100K) and 30%+ annual revenue growth.
- Designed repeatable workflows around every automatable task: copy drafting, variant generation, campaign QA, performance analysis, and segmentation logic built as systems rather than one-off manual processes.
- Wrote all consumer-facing copy across email, push, and in-app; built reporting dashboards tracking funnel and channel performance; translated data into clear recommendations and acted on them without waiting to be asked.
- Increased new user retention 100%+ within six months by identifying the activation gap, designing an intervention, building it, and measuring the lift.

Technical Product Marketing Consultant · **Freelance** · Remote

Oct 2021 – Aug 2024

- Operated as a high-agency generalist across the full consumer marketing stack for clients including Kiva, Chegg, and Magoosh: lifecycle programs, content production, paid campaign support, and analytics, building systems rather than running individual campaigns.
- Built AI-powered content workflows and automation systems that scaled client output without scaling headcount; wrote copy, built landing pages, and ran structured experiments across channels.

Co-Founder & CEO · Decarbon · Remote

Oct 2021 – Aug 2024

- Founded a consumer health-adjacent platform and owned all marketing from scratch: lifecycle, content, paid, and organic, growing to 5,000 users as a solo operator using AI tools to extend what one person can build and run.

Product Marketing Manager · Magoosh · Berkeley, CA

Oct 2019 – Oct 2021

- Drove 15% annual sales growth, increasing ARR from \$15M to \$17.5M; operated as a consumer marketing generalist across lifecycle, SEO content, CRO, paid support, and analytics for a subscription platform serving 1.5M+ students.
- Used Semrush and Hotjar to identify content and conversion opportunities; improved revenue per visitor 30%+ through structured CRO experiments on a custom HTML/CSS CMS.

Head of Marketing · Electrum · Los Angeles, CA

Sep 2016 – Oct 2019

- Built the full consumer marketing stack from scratch at a B2B2C marketplace: paid social and search (\$20K/week budget), SEO content, lifecycle email and SMS, CRM automation, and landing page optimization, scaling from \$1M to \$2M ARR.
- Tripled organic traffic through an editorial content program; managed a \$20K/week paid media budget with direct revenue accountability.

Teaching Fellow · Teach For China · Yunnan, China

Jul 2014 – Feb 2016

- Taught English to 400+ students in rural southwest China; led the Fellows Advisory Council for cohort professional development.

Education

B.S. Environmental Science · UCLA

Los Angeles, CA

Outstanding Service Award, Institute of Environment and Sustainability

Certifications

- Experimentation Program · Reforge
- LEED Green Associate · U.S. Green Building Council
